

TERMITURF PRODUCT INFORMATION

Australia is the world's driest inhabited continent, and water is becoming scarcer and more expensive. The outlook for ordinary grass is not very bright. In fact, it is distinctly brown. Now there is an alternative that is so realistic, your neighbours will think you have a secret water supply. It's called Termiturf – the smarter looking lawn. Termiturf stays lush and green all year round, without wasting water or your valuable time.

WHAT YOU CAN EXPECT WITH TERMITURF

- Attractive styles to suit any situation or budget
- Low maintenance – lush and green all year round
- Low sheen with natural looking colours
- Realistic thatching, displaying a slight undertone of dry grass
- Family and pet friendly – skin abrasion tested and allergy free
- Manufactured with superior materials to precise quality standards
- 20 metre rolls, either 2 or 4 metres wide for less joins and a more seamless appearance
- 10 year product warranty covering ripping, fading or premature breakdown*
- Installations by our accredited team or supply only

QUALITY MANUFACTURE WITH SUPERIOR MATERIALS

Using proven and tested materials, we have Termiturf manufactured to precise quality standards in order to withstand Australia's harsh climatic conditions.

Termiturf comes from the world's largest synthetic turf manufacturer. Established in 2002, the company is ISO 9001 Quality Accredited and ISO 14001 Environment Management Accredited. Their synthetic lawns are used in over 72 countries with more than one million successful installations. The world governing body of soccer (FIFA) has also certified their sporting turfs in many countries.

ACCREDITED INSTALLATIONS AND A GENUINE WARRANTY

For best results, we recommend your Termiturf be installed by our accredited and experienced team. Our complete installation package takes out the hard work for you. We take care of everything from site clearance to a handover inspection following installation.

You can be sure Termiturf will retain its lush green look no matter what the location. As further reassurance, we provide a genuine 10 year product warranty covering ripping, fading or premature breakdown.

We can also cater for the supply only DIY market with competitive pricing available across the Termiturf range.

QUALITY, NATURAL LOOKING LAWNS

Our range of styles provide realistic solutions for all your garden or landscaping needs. Each lawn cleverly incorporates a second weave throughout the base to present an undertone of dry grass, something quite normal in our warmer climate.

Termiturf comes in either 2 metre or 4 metre widths. Compare this to other synthetic lawns and we'd be surprised if you don't find Termiturf is unique. In simple terms, the wider the roll the better the final appearance as less joins are required in the laid turf.

When it comes to choosing the right lawn, we provide helpful advice so you select the most appropriate style for your needs and your budget.

THE GRANGE

Our most prestigious lawn. It has a wider blade and incorporates a beige-coloured thatching undertone. Visually it is astounding with enhanced resistance to flattening due to its unique C-shaped blade. It has a lush look and feel similar to soft buffalo.

Most suitable for fully landscaped gardens and high traffic areas

THE TOORAK

The longer and finer blades, combined with a greater stitch rate, provide a dense appearance with a very silky feel underfoot. The Toorak is our most popular style and with little to no reflective sheen looks simply fantastic.

Perfect for front lawns and any ornamental applications

THE MAYFAIR

Designed to give a clean, freshly mowed look with its slightly lower cut profile. It has all the features of a premium lawn with only a slightly reduced pile height and stitch rate. It represents great value for a top of the range lawn.

Suitable for any application

THE LIFESTYLE

A lower profile lawn that still maintains a soft feel. Designed to give the appearance of couch grass, The Lifestyle enables you to have that green look all year round, regardless of your budget.

Great for pool surrounds, yards with kids and pets

CREATIVE AND VERSATILE APPLICATIONS

- Landscaping and Creative Features
- Difficult To Maintain Areas
- Small Front Gardens and Verges
- Difficult Access Rear Gardens
- Swimming Pool Surrounds
- Commercial Applications

OUR TERMITURF PHILOSOPHY IS
